Lucas Borges de Carvalho

Back-end Developer | PHP | MySQL | Software Architecture | AI Automation

Lauro de Freitas - BA Brazil | Lucas B | +55 (71) 99318-3070 | lucas.carvalho30111@gmail.com

EDUCATION

University Jorge Amado (UNIJORGE) — **Jorge Amado University Center, Paralela Campus**
Bachelor's Degree in Computer Science — *07/042025*

- Data Science Academy - Python course.
- ADA Tech - Santander Coders 2024 | Front-End, Web Development: Front-End

Universidade Unime — **Unime, Lauro de Freitas Campus**

- *Postgraduate Degree in Software Architecture* — *Graduation: January 2, 2026*
- *Postgraduate Degree in Artificial Intelligence and Data Science* — *Expected graduation: November 30, 2026*

Courses

- Data Science Academy – Python Course
- ADA Tech – Santander Coders 2024 | Front-end Development | Angular

WORK EXPERIENCE

Giusoft Technology — **Lauro de Freitas - BA**
Intern — *May 2024 – January 2025*

- Participated in system testing and implementation.
- Assisted in the creation and deployment of new solutions.
- Contributed to research focused on process improvements and technology adoption.

Giusoft Technology — **Lauro de Freitas - BA**
Junior Developer — *January 2025 – Present*

- Responsible for developing and maintaining web systems using PHP and MySQL.
- Performed bug fixes, SQL query optimization, and ensured application stability for multi-user environments.
- Developed new solutions and automated internal processes, improving operational efficiency and reducing execution time for system routines.
- Worked with Git version control, Linux deployments, and continuous research to optimize processes and adopt new technologies across more than three maintained systems.

LEADERSHIP/INTERCURRICULAR EXPERIENCE

University Jorge Amado (UNIJORGE) — **Jorge Amado University Center, Paralela Campus**
Student Project — *January 2024 – December 2024*

- Developed an educational game to raise awareness about the *Aedes aegypti* mosquito, its reproduction cycle, and the diseases it transmits.
- Built using GameMaker with graphics created in Aseprite.
- Applied game design and programming techniques to create an interactive and informative experience.

SKILLS & INTERESTS

Skills: PHP, MySQL, HTML, CSS, JavaScript, Angular, Bootstrap, TypeScript, Git/GitHub, Figma, Linux, Server Deployment, Cron Jobs, LLMs, Artificial Intelligence

Languages: Portuguese (Native), English (Intermediate – technical reading and documentation)

Interests:

- Automation and AI applied to systems, software architecture, Linux infrastructure, and performance-oriented web development.
